

VILLAS PLAYS
LINE RAILROAD
COUNTER REVOLT

Are Held Ready Between
Torreón and Aguascalientes
For Trouble.

Troop trains, with troops of the Gen. Robles and Gen. Rangel brigades on board, line the railroad sidings from a point near Aguascalientes to stations north of Torreón, according to passengers arriving from the south. Steam is up and the troops, which include two entire brigades, together with artillery equipment, can be moved south at a moment's notice.

According to the same sources, the Aguascalientes conference will be resumed Tuesday. Up to the present there has been a mass of argument, but few tangible results. The commission form of government has been discussed, but no real action has been taken. Supreme power has been taken over by the convention, but to date lived up to its promise to issue a decree, except one, in the form of a request that fighting in Sonora cease until the conference completes its work.

Will Crash Sonora Revolt.
According to Carrancista officials, there are more than 10,000 troops on the west coast that can be moved into Sonora as soon as a settlement is reached. The Carrancistas state that no action has been taken, as the terms of the conference have not been agreed upon. The Carrancistas believe that the Sonora revolt will soon be crushed if the conference brings about an understanding between Villa and Carranza. The west coast troops will be under command of Gen. Huarte.

El Paso to Be Consulate Headquarters.
El Paso is to be made the headquarters for all Mexican consulates in the United States, according to plans now being worked out. Heretofore New York has been the headquarters and all funds have been shipped to that point for transportation to Mexico City. Rafael Múgica has been appointed inspector of consulates in the United States and he will make his headquarters here. Mr. Múgica has already established a bureau at San Antonio.

Cannon For Hill Delayed.
The four 300-millimeter cannons that have been ordered for Gen. Hill at Naco have been delayed and will not arrive here until Tuesday. They will immediately be shipped to the Hill forces. Word has been received here that large detachments of both Villa and Mayo Indians are assisting the Yaquis in their attack on Naco.

Another Villa paper is to be established here. The editor will be Emilio Cacho, former federal governor of the state of Oaxaca. The Villistas already have one paper here, which is bitterly attacking Carranza.

VERACRUZ TRANSFER IS
REFERRED TO CONVENTION

Washington, D. C., Oct. 18.—President Wilson announced today that administrative questions incident to the evacuation of Veracruz by the American forces have been referred by Carranza to the national convention at Aguascalientes. Consul Silliman, who conferred with Gen. Aguilar at Veracruz, reports that the latter has given assurances that all points will be satisfactorily adjusted. Such an arrangement is satisfactory to administration officials here as they believe the action of the convention will be binding on any future government in Mexico.

Hoping to stop the fighting at Naco, on the border, and avert an international complication, the convention at Aguascalientes has sent a commission to confer with governor Maytorena and Gen. Hill, commanders of the opposing forces. This mission was dispatched Sunday night in advance to the state department.

VILLA AGENTS SUE LUNA
COURT MEN FOR \$10,000

Deming, N. M., Oct. 19.—Amado Morantes and Leoncio I. Figueroa, two of Villa's representatives, have brought suit for \$10,000 against W. L. Moody and T. A. Hulsey, the constable at Columbus in the district court here.

The two Villa agents claim that their rooms were searched with force of arms at Columbus and their private papers and belongings examined without authority.

A SURE WAY TO
END DANDRUFF

Stop Falling Hair and Itching Scalp—At Once

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get out four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring, use enough to maintain the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve, and entirely destroy every single sign and trace of it. No matter how much dandruff you may have.

You will find that the itching of the scalp will stop instantly and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

If you value your hair, you should get rid of dandruff at once, for nothing destroys the hair so quickly. It not only starves the hair and makes it fall out, but it makes it itchy, stings, dries, and finally kills it. And, everybody notices it.—Adv.

SOLDIERS OF FORTUNE AND REVOLUTIONARY AGITATORS GATHER IN EL PASO.

American machine gun operators and filibusters, who have been active in former Mexican revolutions, have been arriving in considerable numbers in El Paso during the last few days. Besides the Americans, there are also representing every faction of the "outs," including Crociastans, have been quietly slipping into the city.

The Americans are inclined to talk, but there are indications that two important campaigns, such independent work as they are well equipped and have caused the gathering of soldiers of fortune here. One is the long threatened federal counter revolt which, according to reliable reports, will have its inception in northwestern Chihuahua. The other has to do with the taking over of Lower California for Villa.

Federalists Lack a Leader.
The campaign of the federalists, which is well financed but which so far lacks a field leader, will include federal filibusters who have been operating in northwestern Chihuahua. After long inactivity these bands concentrated a week ago and raided the Palomas Land and Cattle company headquarters, and are reported to have commenced concentrating again in the neighborhood of Lordsburg, N. M., although no regular junta has been formed. It is known that the filibusters have representatives in El Paso and it is even reported that a number of recruits have been obtained and sent to join the main body, entering Chihuahua at a point east of Columbus.

A plentiful supply of arms and ammunition, it is claimed, has been collected here, but there will be no attempt to cross these until the movement develops. If, however, the filibusters have a number of successes in the territory in which they are now operating, it is stated that they will have trouble in securing large financial backing.

Villa Is After Lower California.
Villa agents here have been working some time to bring Lower California into line for the northern leader. Besides this there are a number of independent operators here who are ready to take advantage of the demoralized conditions in Lower California to swing it to whichever faction will pay the most. Mexican, Ensenada and other northern towns in the territory are practically independent municipalities. They are controlled by the old federal army and have no real loyalty to no one. The territory, it is believed, would be at the mercy of almost any faction that could put a few hundred men in the field and its future policy will largely depend on whether Villistas, Carrancistas or federalists arrive there first.

HILL'S CREDENTIALS

The credentials of Gen. Benjamin Hill, which were presented at the Aguascalientes conference by Gen. Alvaro Obregón, were rejected by the conference, according to word received here. Credentials of Gen. Magdalena Cedillo, a Carrancista, were held by his brother, Gen. Saturnino Cedillo, were also rejected. On charges that he was both an Oroquieta and a Felicista, the credentials of Gen. Ricardo Cordeiro were rejected.

CARRANZA AND VILLA
SUE BY AUTO COMPANY

Suit has been filed in the special district court by the International Auto company against V. Carranza, Francisco Villa, Lázaro de la Garza, the Constitutional government, the Constitutional army and others for \$1899 alleged to be due the plaintiff for the sale of an automobile.

The machine, an armored car, is alleged to have been sold and transported to the defendants previous to the battle of Torreón. The defendants allege the car came up to specifications. The plaintiff also asks the right to garnish the account of Lázaro de la Garza, on deposit at a local bank.

INDIANS DEMAND RETURN
OF LAND BY MEXICO

On Board U. S. S. West Virginia, Guaymas, Tex., Oct. 13.—Yaqui Indians have demanded the return of their lands in the Yaqui valley, much of which is held by foreign landowners, and the impossibility of complying with the request is causing the Villistas much concern. A band of Yaquis is reported to have attacked the ranch of governor Maytorena at Ortiz.

VILLA AND HERRERA
TROOPS HAVE BATTLE

Word has been received here of a minor engagement between Villa and Herrera troops at Molino, a town about 20 miles from Parral, on the Parral & Durango railroad. According to the advices, which are meager, the Villistas captured one machine gun. No mention of casualties is made. There are 6000 Villa troops in Parral. Herrera is reported to have established his base at Santa Barbara, a point about 25 miles from Parral on the railroad. He has cut both the railroad and the telegraph.

MEXICAN ARMS FACTORY
TO WORK NIGHT SHIFT

Following a visit to the national arms factory by Carranza, an order has been issued that the force be increased so that both a day and night shift can be operated, according to advices received here. There are 78 cannons that have been received by Gen. Jesús Carranza from the federalists that are to be repaired immediately. About 25,000 rifles have been delivered to the factory to be overhauled.

GEORGE MOORE NOT
EXECUTED AS REPORTED

Ben Moore of this city has a letter from his nephew, Dr. Samuel Moore, Jr., of Chihuahua, Sonora, Mex., stating that George Moore recently reported as having been executed for alleged participation in the Mexican struggle, is alive and all right, and has had no trouble. POLITICIANS IN
NEW MEXICO BUSY

All the Big Guns in the Republican Party Are Out On the Stump.

Santa Fe, N. M., Oct. 19.—The next two weeks will witness spirited campaigning in all parts of New Mexico. Today John R. McFie will go to San Juan county to swing the Republican vote away from Francis C. Wilson to Hernandez and especially to the legislative candidate of the Republican party, United States senator T. R. Catron.

Candidate Catron, who returned yesterday from Carrizozo, where he held a rally at which the other speakers were Judge E. A. Mann, of Albuquerque; Flavio Viñal, the legislative candidate for the shooting district; attorney general Frank W. Clancy; and district judge E. L. Meador, will speak tonight at Las Vegas and, after spending three days in San Miguel county, will promise him a majority of 1500 votes. He will conclude his campaign in Doña Ana, Catraz, Taos and Rio Arriba counties. He also spoke at Capitán and Hondo, in Lincoln county, on Friday, making addresses in both Spanish and English.

Williams Optimistic.
Hugh H. Williams has returned to Lincoln county and will wind up his campaign in Luna county. Mr. Williams returned Saturday night from his campaign in time to attend the smokes given by chairman Ralph C. Ely to 22 leading Republicans at Hotel de Varadero.

Williams, always an optimist, reported that in his opinion Union county will give the Republican state ticket from 100 majority to 1500. He said the Republican legislative ticket is in danger. He deplored the lethargy in Lincoln county, but said that he predicted that, if C. Hernandez will poll the normal Republican strength in the eastern counties.

Torrance county, he reported, would go Republican by 2000 reports, for the state ticket, although Estancia is a sore spot that must be healed. Mr. P. Estancia will run ahead of his ticket there, he declared, and Federico Chavez behind the Republican ticket.

Guadalupe county, he said, in much better shape than first reports had indicated. In Curry county, he declares, the Republican ticket will win by a landslide. He predicted a prize by nominating a sheriff Hannum for the house. However, he regretted to report that the Republican ticket in Lincoln county, he predicted, would be defeated by a landslide. He predicted a prize by nominating a sheriff Hannum for the house. However, he regretted to report that the Republican ticket in Lincoln county, he predicted, would be defeated by a landslide.

Mr. Williams left Sunday for Carrizozo and other southern points to continue his campaign.

Salmon Speaks For Merchants.
Ratner remarkable was the address made at the smokes by Nathan Salmon, a local merchant, who as president of the Merchants association, has called a nonpartisan political mass meeting at his store this evening. Mr. Salmon declared that none is working more loyally for the Republican legislative ticket than he, but it must be understood that the legislative candidate must obligate themselves in favor of the garnishment bill passed by the state senate at the last session. He deplored the lethargy in Lincoln county, but said that he predicted that, if C. Hernandez will poll the normal Republican strength in the eastern counties.

Senator Catron Speaks.
United States senator Thomas R. Catron held up Abraham Lincoln's political ideas as those that should animate the Republican party today. He predicted at least 2000 majority for the Republican ticket in November and asserted it is likely to exceed 5000. He favored the demand of R. Salmon that legislation protect the business man, but not only the business man, but also the workingman.

Ely Praises Andrews.
Chairman Ely paid a tribute to W. H. Andrews, leading him for loyalty to the state and held him up as a shining example of a veteran who is working for Republican success, even though his ambitions had been defeated by that party.

AUTO COLLIDES WITH
CAR; MAN BADLY HURT

While driving car on Montana street Saturday afternoon at 5:20 o'clock Herbert Carter, at the wheel of a Ford touring car, crashed into a Government Hill trolley car going north on Luna and his companion, Albert Chauvet, of 1025 Texas street, was perhaps fatally injured. The two men were thrown against the trolley car and escaped with a few minor injuries but Chauvet was rendered unconscious and was removed to Hotel Dien. The auto was badly wrecked.

According to witnesses of the accident the trolley car was going at a very slow rate of speed at the intersection of the street when the machine struck it. Carter is said to have tried to turn his car north on Luna but the wheels skidded in the sand and the Ford crashed into the front end of the street car.

The two injured men were removed to the Hamilton Rayer, store 2223 Montana, and Dr. Frank Lynch called. Carter walked to his home and the physician ordered Chauvet taken to the hospital, where an examination showed that he was internally injured. The young man is an apprentice for the U. S. S. A. railway and resides with his parents at 1025 Texas street.

After the cats are over, and the yarus begin to fly, there's always one big corker, a real, thundering lie.

JACQUES had just served the second round of cocktails, and was "spinning" a story of fish stories, said C. F. Hughes Vandervelde, "did I ever tell you fellows of the Mediterranean shark that swallowed my five dollar gold piece? Well, it was just like this. We had set off from Venice in gondolas to the open sea to snare gold fish—you know, they catch them by holding a gold piece near the surface of the water till one jumps out after it (sort of hypnotism, I believe) and then, with your free hand, you nab it before it falls back. Well, I'd snared four beauties, and was trying for a fifth, when a twelve foot man entered, took his ugly head out of the water and started to nose my hand. I tell you, I dropped that five dollar gold piece mighty quick, right in the shark's mouth. He seemed as surprised as I was, and disappeared like a flash.

Now comes the strange part. Three years and three months later, I was fishing for sea eels almost in the same spot, when my sea eel catcher brought up a whopping monster shark. I recognized him at once. And when he was sliced open for the mounting table, what do you think we found in his stomach?

"The five!" came the chorus. "Wrong, everybody. Just five dollars and sixty-five cents, the exact amount of the shark's bounty. I'm sure you got Dr. James' Headache Powder—then there will be no disappointment.—Advertisement.
